EXPERIENCE DRY COMFORT

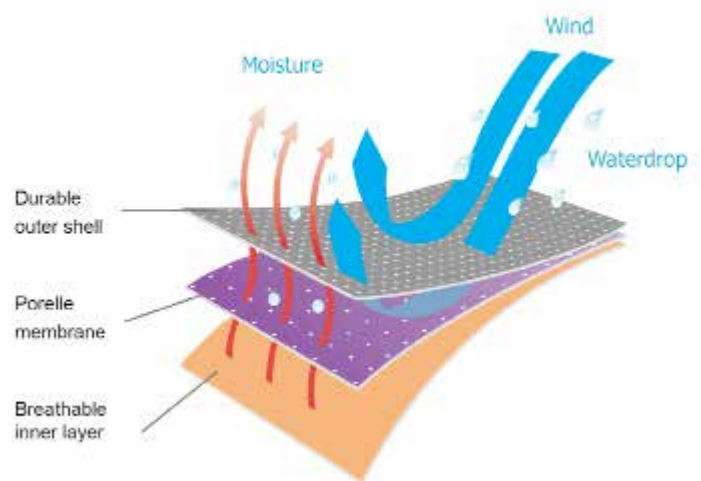

Wet extremities are a thing of the past with DexShell's 100% waterproof socks, gloves and beanies. DexShell's revolutionary technology means that being 100% waterproof doesn't mean you have to compromise on breathability. The patented Porelle membrane that blocks water molecules from getting in also wicks sweat away from your skin, leaving you dry and comfortable at all times.

The secret of DexShell products lies in the unique 3-ply construction:

**Outer shell** – a protective layer constructed from abrasion-resistant materials that make the product both durable and easy to drip-dry.

**Porelle membrane** – a hydrophilic membrane that blocks water droplets getting in, but lets water vapour molecules (sweat) out.

**Inner layer** – constructed from fibres that offer comfort against your skin.

Despite the three layer construction, DexShell products are designed to fit close to your skin, so you don't have to sacrifice comfort or warmth.

DexShell products are perfect for tramping, mountain biking, cycling, running, fishing, hunting, skiing, snowboarding - basically any time you want to keep yourself warm and dry!

100% WATERPROOF  
HIGHLY BREATHABLE

## Beanies

Beanies that will keep your head warm and dry in cold, windy weather or snow. They are completely waterproof with a water repellent outer shell, while the microfleece lining provides superb warmth and comfort.

Outer Shell: 100% acrylic yarn

Interlining: Porelle® waterproof, breathable membrane

Inner layer: Microfleece fabric

Colours available: black, grey, orange gradient. One size fits most.

SIZE	EUROPE	UK	Centimetres
SMALL	7	7 - 8	18 - 20
MEDIUM	8	8	20 - 23
LARGE	9	9	23 - 25
XLARGE	10	10	25 - 27

### Dexshell waterproof gloves are available in four sizes

Use the method illustrated at right to find out the approximate glove size suitable for you. Hold the end of the tape in the centre of your palm and measure around back of hand. Measure in centimetres, around the largest part of the hand. However, as no two hands are alike and finger length relative to palm size ranges from person to person, the best way to get a perfect fit is to try them on.

## DexShell Ultralite Bamboo Socks

An ultra-light, ankle-length sock made with an eco-friendly bamboo rayon inner. Suitable for daily working, dog walking or gardening in wet conditions.

Outer: 96% nylon, 3% elastane, 1% cuff elastic  
 Interlining: Porelle® waterproof, breathable membrane  
 Inner: 70% bamboo rayon (viscose), 30% nylon

## DexShell Wading Socks

A knee-length waterproof sock with a DexShell engineered in-cuff sealable portion. The in-cuff seal stops the water from splashing into the top of the sock, making the sock ideal for canoeing, kayaking, fishing, hunting and those activities where there is a need to wade in deep water.

Outer: 96% nylon, 3% elastane, 1% cuff elastic

Interlining: Porelle® waterproof, breathable membrane

Inner: 90% acrylic, 10% nylon
